

Providing Care and Maintaining Health

We're providing care for those less privileged . . . We're making places for God's face to be seen in the lives of God's people . . . Through hospital and Hospice volunteers we seek to offer comfort. . . Through support networks we offer courage and hope . . . Through blood drives and screenings we encourage good health for the family of the church. . . We reach out to our community as we run errands for those who are ill . . . As we provide our time and financial support for organizations of care. We seek to be A Servant Church. Would you serve too?

**Examining our hearts to
offer ourselves in service.**

About Our Health and Care-giving Team

Our Health and Care-giving Team is comprised of church members who are concerned for the physical well-being of others. These members serve on committees within the church to assure that we are reaching our internal health needs while others dedicate their time and energies to organizations outside of the church as they seek to meet community health needs.

St. John's Opportunities

Amor Proximi: This committee works with senior members who have special needs and are unable to attend church regularly. They offer assistance, care and support from the church family.

Care Committee: This committee responds to families upon the death of a family member. It usually involves serving a meal.

Comfort Casseroles: This ministry is housed in the church and provides meals for those in need. Church members provide food that can be distributed at anytime to other church members in need.

Hospital Volunteers: Church members volunteer at Presbyterian Hospitals, both Main and Matthews as well as the Methodist Home Aldersgate.

RAIN Team: This team ministers to a care partner who has been diagnosed with AIDS or a related disease. It also promotes awareness regarding the disease.

Hospice Team: We currently have two teams who regularly adopt a patient under the auspices of Hospice at Charlotte. Training is required.

Community Opportunities

Charlotte Rescue Mission: This mission and its counterpart, Dove's Nest, are residential facilities for at risk adults. We provide financial support as well as care items.

Hospitality House of Charlotte: Housed within St. John's, this is a home away from home for those with relatives in local hospitals. We offer volunteers.

LOVE, INC: This ministry links people with unmet community needs. Primary needs are for repair work. We provide monetary assistance and volunteers.

Men's Winter Shelter Medical Clinic: Staffed by Carolinas Medical Center doctors, this is run two evenings a week during the winter. We contribute funds to this endeavor.
